

Aeromag 2000 YOW Inc.

Aeromag 2000 is looking to fill several seasonal positions for de-icing technicians for the 2011-2012 de-icing season in Ottawa at the Ottawa International Airport.

This work is seasonal and weather dependent. The typical season runs from October to April each year. We are a 24 hour operation with shifts from 5:00-8:30, 5:00-13:45, 13:30-22:00, 21:00 - 5:15.

- Candidates must hold and maintain a valid Ontario driver's license 'G' and have access to the internet.
- Must have a work permit for the last 3 years in Canada
- Must have own transportation as there are no buses that come to this site and must be able to arrive for work at 4:00, if scheduled for a morning shift as there is a very strict attendance policy
- Must be ok with having as little as 10 hours per week up to 40 hours per week (if desired)
- Must be ok with working in elevated positions, climbing ladders, operating large vehicles, lifting hoses, and working in harsh conditions

Possession of RAIC, AVOP, Radio Operators Certificate-Aeronautical and previous de-icing experience will be considered an asset.
